PROFILE

SEO and GEO growth strategist with 15 years building, ranking, and monetising websites across agency, consulting, and owned-portfolio environments. I lead AI-search visibility and AEO/GEO strategy across a 13-client agency book, combining technical SEO, entity-led content architecture, structured data, and programmatic SEO to improve organic discovery across Google Search, AI Overviews, ChatGPT, Perplexity, and Copilot. I have built and monetised a 44-site portfolio, shipped programmatic platforms up to 27,000+ pages, and developed supervised agentic SEO workflows across Astro, Cloudflare, GitHub Actions, WordPress, and Claude. A 12-year B2B sales background means I run SEO against revenue, retention, and pipeline, not vanity rankings.

EXPERIENCE

SEO Growth Manager · Figment Agency (Remote) Mar 2024 to Present

Lead an SEO pod (team plus client book) and own AI-visibility and AEO/GEO strategy across 13 client campaigns.

- Built the agency's AEO/GEO service line **from zero** across 13 accounts: a repeatable framework for visibility audits, citation-gap tracking, entity mapping, and technical implementation.
- Own strategy, technical SEO, content direction, reporting, client presentations, and implementation handoff to build teams across the account book.
- Recovered **60,000 impressions/month** from a single redirect audit and rolled the learnings into a portfolio-wide technical QA process.

- Developed a brand-consensus methodology surfacing citation gaps, entity ambiguity, and earned-authority opportunities across Google AI Overviews, ChatGPT, Perplexity, and Copilot.
- Launched YouTube SEO as a new agency revenue line, owning strategy, client education, and retention/upsell recommendations.

SEO Consultant · Hummingbird, Hospitality Group (retainer via M&B Marketing) 2024 to Present

- Deployed **25 structured-data schemas** (Service, FAQPage, Article) via a single GTM tag across the production site.
- Own research, technical SEO, and content strategy; deliverables flow through Google Docs to the in-house build team.
- Built the strategy-to-implementation handoff so delivery runs without me in every meeting.

SEO Executive · Totalsurf (Reading) Oct 2023 to Mar 2024

- Managed end-to-end SEO for 6 concurrent clients: technical audits, content strategy, link acquisition, digital PR.
- Built a systematic reporting framework adopted as the agency standard.
- Achieved page-1 rankings in competitive industries through data-driven keyword targeting.

Independent SEO Practitioner · Self-Employed 2011 to Present

15 years building and monetising my own websites: the foundation of everything I do in SEO.

- Built and monetised a **44-site organic portfolio** across affiliate, display, and lead-generation models.
- Architected programmatic SEO builds at **14,400+, 12,600+, and 4,700+ page** scale on Astro 5 and Cloudflare, with structured datasets, automated sitemaps, and per-page JSON-LD.
- Built Hermes, a supervised autonomous SEO operations agent (Claude, scheduled jobs, Telegram controls) that monitors a 44-site portfolio and recommends enrichment, indexing, and technical actions for human review.
- Maintained performance through major Google updates from Panda and Penguin to Helpful Content and recent core updates; shipped a March 2026 recovery enriching 200+ thin pages and fixing 635 redirects.
